INNOVATIVE, CREATIVE, COST-EFFECTIVE BENEFITS PROGRAMS

As one of the world's largest brokers of insurance and related financial services, USI allows businesses to take advantage of our extensive national network of top-rated insurance professionals, all through a single source.

To create our superior service delivery model, we built national and regional teams with experts in all facets of benefits consulting. Now, these highly experienced teams provide USI clients with a single point of localized contact for industry-leading research, analysis, plan design, implementation, service and ongoing administration.

- Strategic direction & planning
- Day-to-day account management
- Financial review and negotiation
- Plan design & marketing
- Policy/service implementation
- Resolution of claims issues
- Loss review, trend analysis & accounting
- Legislative & market updates
- Client/Carrier relationship management
- Creation of communication materials
- Development of web-based communication

LONG-TERM STRATEGIES LET YOU FOCUS ON YOUR BUSINESS

As a strategic business partner, our primary objective is to deliver long-term solutions that benefit your employees and maximize your business potential. USI's goal is to provide you, the employer, the vehicle for one-stop shopping for all of your risk management needs. From the start, our single-source service is designed to:

- Facilitate the implementation of best practices
- Enhance the value of your employee offerings
- Uncover creative, cost-conscious opportunities for funding and risk reduction
- Provide continuous tracking of national/local industry trends
- Ensure proactive response to changing conditions

HARNESS THE POWER OF USI WEB-BASED TECHNOLOGIES – "MyUSI.com"

What is the ideal benefits communicator? MyUSI, powered by Benergy, is a leading internet-based human resources communication tool to help employers distribute information on health and welfare programs. USI has pioneered the development of high efficiency, low-cost web-based benefits communications – and our real-time, 24/7, customizable internet solutions not only enhance the quality of information exchange, they free your HR professionals to focus on more vital company functions while providing employees convenient access to information any time they need it.
